WEDDING

by laturn

PORTFOLIO.

HI THERE.

I am the 'Tatum', in a |WEDDING by Tatum.

Welcome!

I am an event planner with a love for love! That is why I focus on wedding planning. I am meticulous when it comes to details, and I love ticking things off of a to-do list!

A wedding is such a special day when all of your nearest and dearest come together in a big celebration of your love. Be it 200 guests or 20 guests – it is a day that you will remember for the rest of your life! That is why I want to be involved in the planning of this most-special day.

SERVICES.

COORDINATION.

Complete wedding planning from start to finish.

This includes helping you make all of the tricky decisions. Helping you choose a venue. Helping you source and select suppliers. Liaising with all of these service providers.

Creating a custom wedding timeline for you, as well as a personalised budget.

I will keep everything on track throughout the planning process with regular meetings and regular communication, and will involve you as much as you wish to be involved.

INVESTMENT.

For full scale wedding coordination and support, my clients typically invest 10% of their overall wedding budget to work with me. I recommend using my support for the full planning process as it is the most stress-free option in creating a drop-dead gorgeous wedding celebration.

However, not all weddings are the same, and I am happy to work on an event-by-event basis when quoting you. Every couple has different needs and different levels of involvement in the planning of their wedding day, and I will quote you based on what you require from me in the coordination process.

PLANNING PROCESS.

ENQUIRE

Pop me an email or WhatsApp, or give me a call!

A WEEK BEFORE

16 Round about a week before the wedding – I again check in with all of the service providers.

A DAY BEFORE

17 Early on the day of the wedding / the day before the wedding / two days before the wedding – we move into the venue and begin setting up. (Different venues have different rules regarding set up – all of this will be confirmed when you book your venue right at the beginning of our journey together.)

ON THE DAY

18 On the day of the wedding – you just enjoy yourself!
The day will happen seamlessly around you as I coordinate it all!

AFTER

19 Once it is all over, and you have had the most wonderful wedding celebration – I receive final invoices from the service providers (any possible breakages/ losses/ additions invoices) and I am sent final bar consumption bills and the likes. This is then all sent to you in a final, post-wedding invoice for you to settle.

20 You receive your wedding photos and/or video a few weeks after your wedding, and you relive the amazing day!
